

Anil Kumar

QA Manager | Playwright, Automation Lead | Quality Engineering Leader AI-Driven | Test Automation Specialist SDET | Test Architect | Gurugram, Haryana | #91-9999749875 | ak108.mail@gmail.com | [LinkedIn](#) | {Immediate joiner}

PROFESSIONAL SUMMARY

QA Manager with 14+ years of experience in Automation Testing across Web, Mobile, and API platforms within Healthcare and Enterprise domains. Expertise in designing scalable Playwright (Web & API) automation frameworks using JavaScript/TypeScript, POM, Cucumber BDD, and Data-Driven architectures. Hands-on experience in AI-assisted automation using Copilot, OpenAI, Claude, Playwright Agents, MCP, and Playwright CLI tools to enhance productivity and test efficiency. Experienced in CI/CD integration, Agile delivery, QA strategy, release governance, risk-based testing, audit management, and healthcare compliance standards including HIPAA, HITRUST, GDPR, and FDA 21 CFR Part 11.

TECHNICAL SKILLS

➤ Tools & Technologies

- **Automation & Testing:** Playwright, Selenium WebDriver, Appium, REST Assured, Postman
- **Programming Languages & Frameworks:** JavaScript, TypeScript, Core Java, Cucumber BDD, TestNG
- **CI/CD & DevOps:** AWS, Azure DevOps, GitHub Actions, Git, Maven
- **AI & GenAI Tools:** OpenAI ChatGPT, GitHub Copilot, Claude, Cursor AI, Playwright Agents, MCP, and CLI
- **Test Management & Agile:** JIRA, Xray, TM4J, Agile, Scrum
- **Healthcare & Compliance:** EMR/EHR, HIPAA, HITRUST, GDPR, FDA 21 CFR Part 11

➤ QA Leadership, Governance & Compliance

- QA Strategy, Release Governance, Test Planning, and Audit Support
- Quality Gate Reviews, Defect Triage, and Stakeholder Communication
- IQ, OQ, PQ, OQR, RTM, and Validation Documentation
- HIPAA, HITRUST, GDPR, and FDA 21 CFR Part 11 Compliance

➤ Playwright Automation & AI-Driven Testing

- Playwright Web & API Automation using JavaScript/TypeScript
- Cucumber BDD, Page Object Model (POM), Hybrid & Data-Driven Frameworks
- Playwright Agents, MCP Server Integration, and Playwright CLI Tools
- AI-assisted Automation using GitHub Copilot and Claude
- Cross-browser Testing, Parallel Execution, and Test Optimization

➤ Test Automation & QA Engineering

- Functional, Regression, Smoke, Sanity, Integration, System, and UAT Testing
- Web, Mobile (Android/iOS), and API Automation Testing
- Enterprise Automation Framework Architecture, Scalability, and Test Optimization
- SDLC, STLC, Defect Lifecycle, Agile/Scrum, and Risk-based Testing

➤ DevOps & CI/CD, API Testing

- REST API Automation using Playwright API, REST Assured, and Postman
- API Authentication, JSON Validation, Response Assertions, and Schema Validation
- Jenkins, GitHub Actions, Azure DevOps, Git, and Maven
- Continuous Integration, Continuous Testing, and Release Validation

➤ Selenium & Mobile Automation

- Selenium WebDriver with Core Java
- Appium Automation for Android and iOS Applications
- TestNG Framework, Parallel Execution, and WebDriver Architecture
- Mobile Application Testing and Browser/Device Compatibility Testing

PROFESSIONAL EXPERIENCE

Medocity Inc., Gurugram – Sr. QA Manager *May 2017 – Present*

- Leading enterprise QA strategy and automation initiatives for AI-enabled healthcare and remote patient monitoring platforms.
- Designed scalable Playwright automation frameworks using JavaScript, Cucumber BDD, POM, API automation, and Data-Driven architecture.
- Implemented AI-assisted testing workflows using Playwright Agents, MCP Server integration, and advanced automation tooling.
- Reduced manual regression effort by 60% through scalable Playwright automation and optimized test execution workflows.
- Managed Web, Mobile, API, Integration, Regression, Smoke, and UAT testing activities.
- Led release readiness reviews, production validation, and quality gate activities.
- Integrated Playwright automation suites with Jenkins and GitHub CI/CD pipelines for continuous testing.
- Prepared and reviewed IQ, OQ, PQ, OQR, RTM, and audit documentation aligned with healthcare compliance standards.
- Mentored QA engineers on Playwright automation, framework architecture, and testing best practices.

SBI Cards and Payment Services Ltd., Gurugram – QA Manager *Jan 2017 – Apr 2017*

- Managed QA activities for credit card applications including functional, regression, and automation testing.
- Handled defect tracking, release coordination, and quality reporting using Agile methodologies and JIRA.

NIIT Ltd., Gurugram – Sr. Test Engineer *Jan 2012 – Jan 2017*

- Developed Selenium WebDriver automation suites using Java and TestNG framework.
- Performed Web, Mobile, API, Integration, and Regression testing across enterprise applications.
- Collaborated with cross-functional teams for requirement analysis, testing, and release validation.

KEY PROJECTS

V3 Platforms (Configuration Portal | Site Portal | MyCare Journey) – AI-enabled healthcare platform supporting patient monitoring, guided sessions, alerts, reminders, role-based workflows, and provider collaboration.

V2 Platforms (Provisioning | Provider Portal | HomeHealth) – Remote patient monitoring and care coordination platform for chronic disease management, patient engagement, and secure healthcare communication.

PDC System – Web-based eTextbook and licensing management platform integrated with AWS S3, AES Admin, notifications, and reporting workflows.

AWARDS & RECOGNITION

- **ACE of the Quarter Award** – Recognized for leadership, quality delivery, and managing critical client engagements.
- **Team of the Quarter Award** – Awarded for exceptional contribution to project success and collaboration.
- **Star of the Month Award** – Recognized for outstanding commitment and milestone delivery.
- **e-WOW Cards & Hats-off Certificate** – Appreciated for dedication, ownership, and high-quality execution.

EDUCATION

- B.Sc. (Information Technology) – Kuvempu University
- ANIIT – Advanced Diploma in Software Engineering – NIIT (New Delhi)
- Higher Secondary & High School – UNIC, UP
